August 18-20

HAND RAILS ADDED TO McCURDY HILLSIDE CHAPEL

Concrete work and seating for the hillside chapel were completed July 20, 2016. Jim Mitterling continued his involvement with the project by supervising the construction and installation of hand rails by Craig Welding (Mentone, IN). The work was completed in the Fall. The entire cost of the project to date was covered by generous donations from 25 individuals (couples), one church and the Partner's Association.

Once the spring rains stop long enough for the ground to dry, LED lighting will be added along the east and west aisles.

FREEZIN' FOR A REASON

(by Rev. Diana J. Graves)

Members of Kosciusko County Sheriff's Dive Team

Taking the plunge.

(Note the diver in the water.)

Staff & CITs

At our Senior High Fall Getaway in October of 2016, I asked the youth and Staff if they thought we could do a Polar Plunge at YCL. They said “Yes,” so we met in December to plan for an event in February. The Lord gave us wisdom as to how to reach out for donations and when to schedule the event. Letters asking for donations for the Youth Camps Program were sent to family and friends. A few churches were asked to announce the activity to their congregations.

I was worried about the weather, ice and plowing of snow. But, Praise the Lord, when we arrived on February 18, 2017 God had taken care of the weather. The water was frigid, but the air temperature was in the 60's! The Kosciusko County Sheriff's Dive Team monitored the situation and made sure that everyone was safe.

A large SHOUT OUT to the Big Lake, Decatur, New Hope, Park Place, Praise Chapel, South Side, Tillman Road and Wabash churches for working hard on donations. Also, to Sport Form. Praise the Lord! We raised over \$8000 of a \$5000 goal.

To all who supported us in this effort we offer a BIG:

2017 Season Off to Great Start

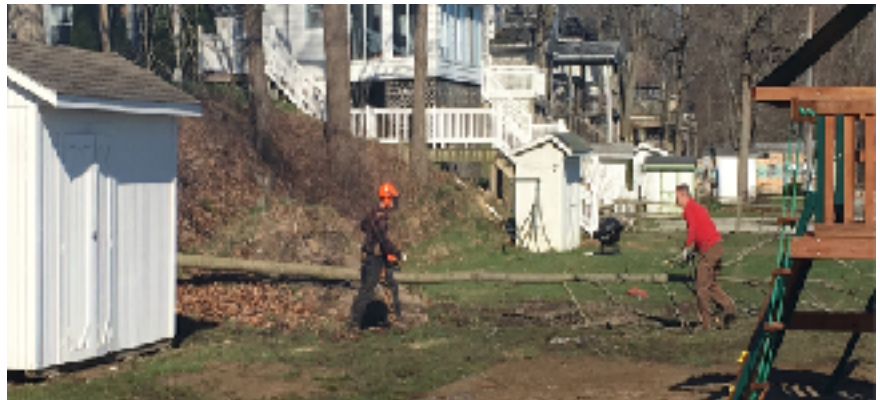

Twenty men from Decatur Church of God Men's Ministry held a retreat April 7 & 8 on the YCL Campgrounds. They held learning/teaching/worship sessions in the worship area of the Administration Building, cooked and ate in the cafeteria, and spent several hours working on the grounds.

Clean-up at Hillside Chapel

Teaching/learning session

Work projects included the removal of at least 6 trees, raking and burning leaves, cleaning up sticks and debris, cleaning the rust stains in the bathrooms and living areas of Farlow and Riggle Dorms, smoothing driveways, removing some stumps and repairing some tombstones in the cemetery at the west edge of the campgrounds. Thanks to these men for investing in YCL!

Clean-up at beach area

Needed equipment was brought
